SECTION B

PREAMBLE:

The Courage Child Protection Toolkit and Community Engagement Programme was developed by Deirdre Blackie, in partnership with the National Adoption Coalition of South Africa and the Swedish Foundation for Children without parental care in 2015.

The programme was piloted in South Africa, Zambia and Lesotho and has since been rolled out to number of child protection officers and organisations in a range of countries including: South Africa, Lesotho, Zimbabwe, Kenya, Seychelles, Sweden, United Kindom and North America.

A decision was taken by key role players to develop a stand-alone not-for-profit company for the Courage Toolkit and programme and applications were put forward towards the end of 2017.

Courage Child Protection NPC was launched during Child Protection Week in May 2018 and has continued to build relationships and train organisations, communities and individuals in the identification and management of child protection challenges.
